

# MADRAS SCHOOL OF SOCIAL WORK

( An Autonomous Institution affiliated to the University of Madras )

Accredited by NAAC With "A" Grade

**PG DEPARTMENT OF HUMAN RESOURCE &  
Organization Development**

**NEURO LINGUISTIC  
PROGRAMMING  
VALUE ADDED COURSE**

**- V RANGARAJAN**

One of the greatest discoveries of the last century in the field of human psychology is NLP ; NLP is Neuro Linguistic Programming.  
With the advent of NLP not only the field of Psychotherapy but the entire gamut of human adventure started seeing the field of possibilities from an empowering angle.

## Syllabus

- Module1- Introduction and Fundamentals of NLP
- Module2- Components and Techniques
- Module3- Benefits and criticism
- Module4- Practical Applications

## **FOR REGISTRATION**

- **STUDENTS CAN REGISTER FOR THE COURSE THROUGH THE IBOSS PORTAL OF THE COLLEGE WEBSITE**
- **THE COURSE WILL BE CONDUCTED EVERY SATURDAY ONLINE**
- **DURATION: FEBRUARY 2018 - MARCH 2018**

[mssw.ibossems.com](http://mssw.ibossems.com)

# NEURO LINGUISTIC PROGRAMMING

One of the greatest discoveries of the last century in the field of human psychology is NLP ; **NLP is Neuro Linguistic Programming.**

With the advent of NLP not only the field of Psychotherapy but the entire gamut of human adventure started seeing the field of possibilities from an empowering angle.

## Syllabus

**Module 1-** Introduction and Fundamentals of NLP

**Module 2-**Components and Techniques

**Module 3-**Benefits and Criticism

**Module 4-**Practical Applications

### Course outcomes:

1. The History of NLP Past / present / future, the co-creators and significant players.
2. Core NLP patterns & Skills Epistemology: the NLP model for how we know what we know, Rapport building-achieving maximum responsiveness in people around you, Calibration-reading clients non-verbal behaviour, Representational systems – how we structure information, influencing skills, conflict resolution.
3. Linguistic models Original Meta Model, hypnotic language – the Milton Model. Metaphors to stimulate the unconscious to assist the client's creative solutions. The Meta Model for understanding a person's 'map of the world'. How to use language in specific contexts.
4. Classic Code Original patterns and NLP processes for change, including anchoring techniques, processes for overcoming limiting beliefs and increase choice and parts integration.
5. Submodalities Interventions for changing the structure of mental representations such as beliefs, phobias, performance changing with submodalities.

\* Disclaimer : All data and problem are hypothetical and assumed

Problem 1		Maximum Score : 25
Problem Statement	Employee volunteerism is a key aspect in HP's culture for global social innovation. One of the key metrics as part of the culture is the no of hours to employee spent on such activities. The data set below provides the total no of employees and the hours spent on voluntary activities. Please perform a simple correlation solution between total no of employees and the voluntary hours. Provide your inference from the correlation output. (Identify if the data set is positively or negatively correlated)	
Tools	Any Statistical or Analytics tool can be used (Example: Tableau, Minitab, excel, R, Python etc)	
Output	Please provide your outputs in a excel file. Each solution should exist in individual tabs(sheets) in excel with the problem number Do also mention in comments the methods used and your own inference.	

Year	Total no of Employees involved as volunteers	Hours spent in volunteer work
1982	24000	1440000
1983	27000	1755000
1984	29000	1885000
1985	12000	816000
1986	23000	1748000
1987	21000	1869000
1988	26000	1976000
1989	32000	1440000
1990	36000	1224000
1991	38000	1292000
1992	38765	1240480
1993	39876	1794420
1994	40987	2746129
1995	42909	3475629

2016	80343	2570976
2017	25002	525042

\* Disclaimer : All data and problem are hypothetical and assumed

Problem 2		Maximum Score : 40
Problem Statement	From the previous correlation, please identify if there is a significant increase in the survey rating based on the number of hours spent on volunteer work. Based on the solution derived, please relate your solution to the previous problem and propose an optimum number of hours which should be used for volunteering. 1) Is the hours to be increased or decreased? 2) What should be the optimum number of hours used for volunteering? 3) Is there a significance at all between hours spent and the survey rating Note: Survey rating scale is from 1 to 10, 10 being completely satisfied and 1 being dissatisfied.	
Tools	Any Statistical or Analytics tool can be used (Example: Tableau, Minitab, excel, R, Python etc)	
Output	Please provide your outputs in a excel file. Each solution should exist in individual tabs(sheets) in excel with the problem number. Do also mention in comments the methods used and your own inference.	

Year	Total no of Employees involved as volunteers	Hours spent in volunteer work	Rating of satisfaction
1982	24000	1440000	6
1983	27000	1755000	7

Problem 3

Maximum Score : 50

Problem Statement

Employee training is a very important aspect of HP's skill management program. The below data set is obtained for some 4000 employees. They are less than 2 years old in the organization. The candidates have been recruited directly from college campus. We need to now assess the training effectiveness conducted by HP. The below solutions need to be worked out.

1) A set of 10 university is furnished right to this table. This is the list of colleges where the campus recruitment is high. The organization is now thinking about reducing this list from 10 to 6. Recommend which top 6 universities should be targeted. Relate to the scores obtained by the employees and the college from which they have graduated from. Use appropriate variance analysis.

2) Recommend an optimum training frequency based on the scores obtained and the frequency of training the employees were involved.

3) Assume a one time training cost of \$25,000 USD for a batch, based on your recommendation for question 2 please identify what would be the financial impact (Positive or Negative)

Note: Primary metrics scores involve subjects related to day to day process which the employee involved in (Example: Accounting basics, Supply chain system usage, production optimization methods etc).

Secondary metrics score involve subjects related to general category (Example : presentation skills, analytical skills etc)

Tools

Any Statistical or Analytics tool can be used (Example: Tableau, Minitab, excel, R, Python etc)

Output

Please provide your outputs in a excel file. Each solution should exist in individual tabs(sheets) in excel with the problem number. Do also mention in comments the methods used and your own inference.
