VISUAL AIDS PRESENTATION (PUPPETRY) WORKSHOP REPORT (2018 – 2021)

SYNOPSIS:

Introduction

Activities

Learning experience

Conclusion

INTRODUCTION:

The two day workshop was based on puppetry training. The training started on 21st February 2019 and ended on 22nd February 2019. The trainer for the two days workshop was “MYRTLE SOCIAL WELFARE NETWORK”.

Myrtle social welfare network is a registered charitable organization working for the development of under privileged community since 2003. Myrtle aims to “enlivening the children for a better tomorrow”. The organization works for the social and economic welfare of all classes of people irrespective of caste, creed, sex, and religion. It seeks to create opportunities for children to understand the latent potential for a progressive life. Myrtle has conducted several capacity enhancement initiatives for government departments, educational institutions, INGOs, NGOs and UN agencies.

ACTIVITIES:

Ice breaker- dividing into groups

The class was divided into four groups which had 10 members in it. We had to create a group name for each of the groups and an action to describe about the group. First we did a warm up activity which involved all the members of the group to participate. In this activity we were given rubber bands and asked to put number of ponytails on a boy and whichever teams gets more number of ponytails gets points.

HISTORY OF PUPPETS:

- Word puppet comes from the Latin word pupa ,meaning “doll”
- It was used more than 3000 years ago in China and Egypt.
- It is all around the world for different cultures, religious rituals
- Nowadays, puppets are being used to create knowledge, celebrations, social awareness programs, educations, entertainments, religion and therapy, etc.
- A puppet is brought to life with the help of a puppeteer.

WHAT’S A PUPPET?

A puppet is an object, often resembling a human, animal or mythical figure that is animated or manipulated by a person called a puppeteer.

VARIETIES OF PUPPETS

- Finger puppets
- Socks puppets
- Shadow puppets
- Rod puppets
- Glove puppets
- Marionettes
- Water puppets
- Muppets
- Ventriloquist
- Human puppets
- Carnival puppets

MUPPETS

PUPPET STAGE

HUMAN PUPPET

TECHNIQUES OF OPERATION:

- Manipulation
- Vocalization

After we seeked knowledge about puppetry and the skills required, each team was asked to choose a topic related to current social issues of our choice and put up a puppetry play which included singing .

The next day we were asked to rectify our mistakes and work on the areas were we had to concentrate more and we were given time to practice and towards the end we were asked to present a paly to our faculties.

LEARNING EXPERIENCE:

The outcome of the workshop was a good experience,

- We got a comprehensive knowledge on puppetry
- How to design and make puppets, set stages etc.
- How to develop scripts that contain relevant messages.
- We learnt skills in voice modulation and techiques to attract audience and keep them engaged.
- To synchronize background voice and pupets.
- To know roles and responsibilities and learn how to function as a group during performance.

CONCLUSION :

The workshop was a new and fun learning experience, it helped us to bring out the hidden talents from within us. It was more of an interaction session which helped us to create a rapport between each and every fellowmate.
