

Extension Activity

3. CHILD - Extension Activity

“CHILD” brings about a social-transformation in the lives of young children who have been orphaned and ostracized for no fault of theirs. These children come from very poor socio-economic backgrounds in which they’ve either lost their parents to HIV/AIDS or are the abandoned children of commercial sex workers or destitute women.

No.of .Sessions: 2

No.of. Volunteering Hours:2hr per session.

No.of. Volunteers: 4

Ngo's Feedback:

The children really enjoyed being with the volunteers as it was the first time they experienced volunteers coming to teach them. They deeply appreciate if the volunteers could come on a regular basis to teach the children

Volunteers Feedback:

We had a good time with these children and enabled them to do the art facilitation and storytelling on their own. These kids made us want to come here again and again
