To whomsoever it may concern

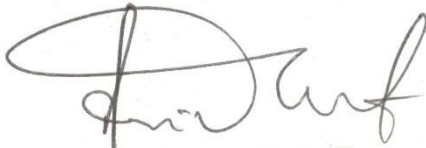

Greetings from Kelsa Solutions!

Kelsa Solutions is a boutique management consulting company. We work with various organizations across industries, to help them take strategic management decisions. We develop processes that help scale up their performance and enhance employee productivity.

We have been collaborating with Madras School of Social Work over the past 10 years. A key area of collaboration is to provide their HR students with internship opportunities. We engage students on internship projects that help them to understand various aspects in HR and to provide a comprehensive view on the field of HR.

It is our pleasure to have had the opportunity to engage young minds and encourage them to step into the corporate world. We see this collaboration to be ongoing for years to come.
