To

The Principal,

Madras School of Social Work.

Sub: **Acknowledgement letter for collaboration**

Dear Sir,

Greetings from Abhinavgram Society!

We are indeed delighted to be **associating** with Madras School of Social Work on the **student internship programme** for the past 4 years. This partnership has been contributory to the field learnings of social work students as well as the growth of Abhinavgram Society throughout.

The internship programme enables students to gain a first-hand exposure to the lives and livelihoods of tribal communities in Kolli Hills. The field work experience provides the students with understanding on issues related to tribals, the factors underlying it and various approaches to tribal development. The students undergo both theoretical and practical sessions on Monitoring and Evaluation of programmes, Needs Assessment and Participatory Rural Appraisal. Furthermore, the field work curriculum includes, management of NPO, resource mobilization, networking and documentation, thereby providing a comprehensive learning experience.

The partnership is symbiotic in nature. In return to the field inputs, Abhinavgram benefits from the work contribution of the students, their fresh ideas and the technological advancements they introduce to support development works.

As a proud alumnus of Madras School of Social Work, I wish the young social work fraternity a great field experience in Kolli Hills. We look forward to continued association with Madras School of social work student internship programme.

Thanking you,

Yours faithfully,

(THIRUPATHI P)
