To,
The Principal,
Madras School of Social Work

Sub: **Acknowledgment Letter of Collaboration**

Dear Sir,

Greetings from Psyhub Brain and Behaviour clinic!

We are indeed **delighted to be associated** with the Department of Counselling Psychology of Madras School of Social Work on the **student internship programme** for the **past 3 years**. This partnership has been contributory to the field of psychology, the students as well as the growth of Psyhub.

The internship programme enables students to gain first-hand exposure to various clients with psychological disturbances. The internship experience provides the students with the understanding pertaining to the field of Mental Health. The students undergo both theoretical and practical sessions on Counseling, Case Analysis, Psychometric Assessments and Project support. We were also happy to associate with your institution for rallies, seminars and conferences on World Mental Health Day.

The partnership is symbiotic in nature. In return to the field inputs, Psyhub benefits from the work contribution of the students, their fresh ideas and involvement with the clients. We look forward to the continued association with your students for the future internship programmes and courses.

Thank You.

Sincerely,

(Dr. Nappinnai)
