Chennai- 600 008

Dear Sir,

Greetings from ECOMWEL!

At the outset, we would like to sincerely thank Madras School of Social Work for the value embedded **partnership** with us in training the social work students during the concurrent **field work**.

The field work training at ECOMWEL in the past focused on three main components. Firstly, building / strengthening perspectives on Socio - Eco - Political issues confronting the marginalized especially Homeless women, Farmers & Rural Poor. Secondly, strengthening the skills relating to community mobilization, training, campaign and documentation adopting creative methods of learning. Thirdly, strengthening the value based commitment to work consistently among the marginalized.

Field work students of Madras School of Social work have contributed in enriching our work among the needy. Energy filled enthusiasm of diverse students beyond their academics pursuit have added value in our journey towards social transformation.

We sincerely appreciate and thank the Principal, Faculty and the past students for their **collaborative Support, Solidarity & Partnership**.

Thanking you & looking forward to your continued partnership in building youth towards Social Change.

With regards,

Esther Beulah
Chief Executive
