

TALK SHOW

VIBRANT DEMOCRACY IS POSSIBLE BECAUSE OF... IT'S CITIZENS OR IT'S FOUR PILLARS

United Nations' International Day of Democracy

In 2007, UN General Assembly proclaimed 15th September as the International Day of Democracy. The International Day of Democracy provides an opportunity to review the state of democracy in the world.

(<https://www.un.org/en/sections/issues-depth/democracy/index.html>).

There are more than 120 countries in the world that follow democracy. We as citizens of a democratic country, have many questions in our mind.

Is democracy a responsibility? Or

Is it a freedom? Or

Is it just another form of government?

To find the answers collectively to the questions we have, please join the 'talk show'.

Please Note:

- Talk show will be recorded and uploaded in YouTube
- Register your names to participate in the talk show
- Others are welcome to participate as audience!

To celebrate UNs' International Day of Democracy...

MSSW Library invites you for a
